

# Identification vs Authentication

## **Identification**

- ➔ Assigning a set of data to a person or an organization (subject)

## **Authentication**

- ➔ Making a safe link between a subject and one or several of identities

# Authentication Factors

## **Something that you know**

- ✓ Password, PIN number, secret key, secret handshake, secret questions ...

## **Something that you have**

- ✓ IDs, badges, physical key ...

## **Something that you are or do (biometrics)**

- ✓ Fingerprint, voice recognition, face recognition ...
