

➡ Some common vulnerability classes and their common impact

● Use After Free - Arbitrary Code Execution, Denial of Service

Time of Check Time of Use / Race Conditions -

Elevation of Privilege, Denial of Service

• **Out of Bounds Write/Read** - Arbitrary Code Execution,
Information Disclosure, Denial of Service

Vulnerability Classes (subet) Contd.

Vulnerability Classes (subset) Contd.

- ➔ Some common vulnerability classes and their common impact
- **Use After Free** - Arbitrary Code Execution, Denial of Service
- **Time of Check Time of Use / Race Conditions** - Elevation of Privilege, Denial of Service
- **Out of Bounds Write/Read** - Arbitrary Code Execution, Information Disclosure, Denial of Service

Vulnerability Discovery and Disclosure
