➡ Some common vulnerability classes and their common impact

- **Use After Free** - Arbitrary Code Execution, Denial of Service

- **Time of Check Time of Use / Race Conditions -** Elevation of Privilege, Denial of Service

- **Out of Bounds Write/Read** - Arbitrary Code Execution, Information Disclosure, Denial of Service

Vulnerability Classes (subset) Contd.

Vulnerability Classes (subset) Contd.

➡ Some common vulnerability classes and their common impact

◉ **Use After Free** - Arbitrary Code Execution, Denial of Service

◉ **Time of Check Time of Use / Race Conditions -** Elevation of Privilege, Denial of Service

◉ **Out of Bounds Write/Read** - Arbitrary Code Execution, Information Disclosure, Denial of Service

Vulnerability Discovery and Disclosure
